PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern | Ministry of Health and Social Protection, Rabat — Sep 2025 – Sep 2026

- Contributed to e-ESJ, a youth digital-health web platform, using Next.js, React, TypeScript, Express and SQLite.
- Worked on appointment booking, self-assessment and electronic health-record workflows, with consent-aware access and role-based permissions.
- Integrated REST APIs and authentication flows using JWT and httpOnly cookies; supported UI improvements, testing and technical documentation.

Software Development Intern | Bigbang Centre — May–Sep 2023, 2024 & 2025

- Completed three internships across consecutive years, contributing to software development and gaining practical experience in professional team environments.

SELECTED PROJECTS

Forge — Team Project Management | React, Fastify, SQLite, Drizzle ORM, JWT | Code · Demo

- Built REST API, web app and CLI for organizations, tasks, Kanban boards and RBAC; added secure token flows and 66 API integration tests.

Pulse — Real-Time Social Platform | React, TypeScript, Express, Socket.IO, Turso | Code · Demo

- Built communities, feeds, posts and direct messaging with real-time notifications, JWT access/refresh authentication and responsive UI.

Advanced Authentication System | Java 17, Spring Boot 3, React, OAuth2, JWT | Code

- Implemented access/refresh tokens, Google/GitHub/Facebook login, TOTP-based 2FA, password reset, account linking and rate limiting.

DevMetrics — GitHub Analytics | TypeScript, Fastify, GitHub GraphQL, Turso | Code · Demo

- Developed OAuth-based GitHub analytics with background data synchronization, activity metrics and encrypted token storage.
